

U.S. STATES WITH GREENHOUSE GAS EMISSIONS TARGETS

State	2010	2012	2015	2017	2020	2025	2028	2035	2040	2050+	Source
Arizona					2000 Levels				50% below 2000		EO 2006-13
California	2000 levels				1990 levels					80% below 1990 levels	EO S-3-05 (original targets) AB 32 Global Warming Solutions Act (Codified)
Colorado					20% below 1990 levels					80% below 2001 levels	EO D 004 08
Connecticut	1990 levels				10% below 1990 levels					75-85% below 2001 levels	CT Climate Change Action Plan (original targets) HB 5600 (Codified)
Florida				2000 levels		1990 levels				80% below 1990 levels	EO 07-127
Hawaii					1990 levels						Act 234 (HB226)
Illinois					1990 levels					60% below 1990 levels	Press Release 2-13-07
Maryland		10% below 2006 levels (interim)	15% below 2006 levels (interim)		25% below 2006 levels					90% below 2006 levels	Maryland Climate Change Commission's Climate Action Plan-Recommendations (2008) Greenhouse Gas Reduction Act of 2009
Massachusetts					Between 10-25% below 1990 levels					80% below 1990 levels	Global Warming Solutions Act, 2008 (Codified)
Maine	1990 levels				10% below 1990 levels					75-85% below 2003 levels	LD 845 (HP 622)
Michigan					20% below 2005 levels					80% below 2005 Levels	Executive Order 2009-4 (July, 2009)
Minnesota			15% below 2005			30% below				80% below 2005 levels	Next Generation Energy Act (Codified)

			levels			2005 levels					
Montana					1990 levels						Climate Change Action Plan Recommendations (2007)
New Hampshire*	1990 levels				10% below 1990 levels					75-85% below 2001 levels	The Climate Change Challenge
New Jersey					1990 levels					80% below 2006 levels	Press Release and EO 54 – 2-13-07 (original targets) A3301 (Codified)
New Mexico		2000 levels			10% below 2000 levels					75% below 2000 levels	EO 05-033
New York										80% below 1990 levels	EO #24 (August, 2009)
Oregon	Stabilize				10% below 1990 levels					75% below 1990 levels	OR Strategy for Greenhouse Gas Reductions (original targets) HB 3543 (Codified)
Rhode Island	1990 levels				10% below 1990						RI Greenhouse Gas Action Plan
Utah					2005 levels						Announced by the Utah Department of Environmental Quality
Vermont		25% below 1990					50% below 1990			75% below 1990	Act 168: An Act Relating To Establishing Greenhouse Gas Reduction Goals And A Plan For Meeting Those Goals.
Virginia					30% below business as usual by 2025						Executive Order 59 (2007))
Washington					1990 levels			25% below 1990 levels		50% below 1990 levels	EO 07-02 (original targets) SB 6001 HB 2815 (Codified)

States in red have set targets into law

*NH targets are goals set forth by the Conference of New England Governors and Canadian Premiers
